# Your Magic Theater Room projector

# SBC **SC940**

Philips is dedicated to producing caring, reliable products that new moms and dads really need. Products whose reliability and operating quality bring reassurance. This Magic Theater Room Projector will help your baby fall asleep with reassuring sounds and appropriate images. By using shapes, colours and sounds that relate to various ages, you can stimulate your baby's aural and visual development. You can also make your own pictures to bring your daily bedtime story to life!

Having a regular bed-time ritual helps your baby to wind down after an energetic day, giving your baby the time to relax to fall asleep easily.

Please read this User Guide carefully before using the Magic Theater Room Projector. Keep this User Guide and packaging, as they contain important information.

#### Philips Baby Care, Taking care together

Legend of product.

Illustrations on inside flap.

#### 1 Slide wheel

Contains the slide

- 2 Lens
- 3 Focus ring

Adjusts the focus of the projected image.

Switches the rotation function on and off.

- 5 Slide holder
- 6 SOUND selector
  - Switches the sound on and off.
  - Selects sounds.
- 7 Battery compartment
- 8 Lamp compartment
- 9 ON/OFF timer control
  - Switches the projector on and off.
  - Selects the desired projection time.
- 10 Projector foot

# Getting the Bedtime Magic Room projector ready

#### Inserting the batteries

The Bedtime Magic Room projector requires 4 AA type batteries (not included). You can also use rechargeable AA batteries but these batteries have a shorter operating time.

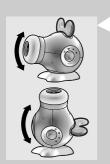

- 1 Open the battery compartment (7) by turning the coin slot counterclockwise. Approx. 1/4 turn. For this use a coin.
- 2 Insert four AA batteries, noting the + and configuration inside the battery compartment
- 3 Put the battery compartment cover back in place.

4 Close the battery compartment (7) by turning the coin slot clockwise. Approx. 1/4 turn. For this use a coin.

# Using your Bedtime Magic Room projector

# Positioning the Bedtime Magic Room Projector

- The Bedtime Magic Room Projector is fit for both wall and ceiling projection and can be positioned under any angle.
- You will get the best image quality if you place the projector between 1.5 and 5m (1.6 and 5.5 yards). from the wall/ceiling.
- The best projection quality is achieved in a dark room.

#### **Inserting slides**

1 Take the slide holder (5) out of the projector.

2 Take the slide-wheel out of the slide holder and remove the printed disk (slide) from the slide-wheel (1).

3 Insert the chosen slide into the slide-wheel. Make sure that the slide is positioned under the tabs at the edge of the slide-wheel.

# Selecting the sound

- Set the SOUND selector (6) to the desired sound symbol:
  - no sound;
  - " soothing heartbeat;
  - → streaming water;
  - త gentle lullaby.

#### Setting the timer

- Set the ON/OFF timer control (9) to the desired playing time.
- > Sound starts.

# Focusing the image

• Turn the focus ring (3) to adjusts the focus of the projected image.

#### Rotating the projected image

You can project both still and rotating images. In general, babies are soothed by moving images, but if your child prefers a still image, you can use a still image.

- Set the MOTOR ON/OFF (4) switch to ON.
- > Once the projector is switched on, the image will rotate gently.

#### Making your own slides

You can bring even more magic into your bedtime story by drawing your own images and project them on to the baby room's wall or ceiling.

Use permanent markers to draw on the blank slides provided.

Insert your own slide as described under 'Inserting slides'.

If you have no more blank slides left, you can also use blank overhead sheets.

#### **Maintenance**

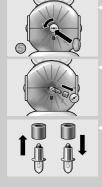

# Replacing the lamp

1 Open the lamp compartment (8) by turning the coin slot counterclockwise. Approx. 1/4 turn. For this use a coin.

- 2 Take out the lamp.
- 3 Remove the isolating tube from the old lamp and place it on the new lamp.
- 4 Insert the new lamp into the lamp compartment.
- 5 Put the lamp compartment cover back in place.
- **6** Close the lamp compartment (8) by turning the coin slot clockwise. Approx. 1/4 turn. For this use a coin.

# Replacing the batteries

- 1 Open the battery compartment (7) by turning the coin slot counterclockwise. Approx. 1/4 turn. For this use a coin.
- 2 Insert four AA batteries, noting the + and configuration inside the battery compartment.
- 3 Put the battery compartment cover back in place.
- **4** Close the battery compartment (7) by turning the coin slot clockwise. Approx. 1/4 turn. For this use a coin.
